design Piero Lissoni

Sofa with backrest and armrest frame in multilayer poplar wood. Seat chassis in 30x50mm tubular steel with black epoxy powder coating, sprung with coated rubber elastic straps. Structure padded in differentiated density polyurethane foam and acrylic fibre layers, covered in 100% polyether thermally bonded onto a polyamide velveteen backing. Lumbar support inserted in the backrest structure, with multilayer frame padded in differentiated density polyurethane foam. Leather or fabric non removable "capitonné" working. Seat cushions in prewashed and sterilized goose down with differentiated density polyurethane foam insert. Additional loose quilted cushions, available in two sizes (50x50cm or 60x60cm), with fabric or leather upholstery, both fully removable by zippers. Steel feet, joined by a bracket, in tubular steel square section 15x15mm, with bronzed epoxy powder coating. Fabric or leather upholstery, both fully removable by zippers and Velcro fastenings. All perimeter stitching are enhanced with edgings in "grosgrain" for the fabric version, and braided leather trim for the leather version. Seat depth 68cm.

Supporting frame in 30x50mm tubular steel with black epoxy powder coating and multilayer under seat panel. Steel feet, joined by a bracket, in tubular steel square section 15x15mm, with bronzed epoxy powder coating. Padding in differentiated density polyurethane foam, covered with a quilted mat in pre-washed and sterilized goose down, stitched into separate compartments. Fabric or leather quilted upholstery, both fully removable by Velcro fastenings.
