

Ray

SOFAS

2010

Antonio Citterio

Description

Aesthetical and functional, Ray is a modular system that starts with linear elements, chaise longues and terminal elements, which can be used to form all sorts of configurations – even corner and peninsula models. Its strong points are linearity and simplicity, enriched with tailoring elements such as the blanket stitch in the same colour or a contrasting hue, that enhances the removable covers. A main feature is the die-cast U-shaped foot that, along with the seat cushion height, contributes to creating an image of Ray as a particularly elegant piece with balanced forms.

Technical information

Internal frame

tubular steel and steel profiles

Internal frame upholstery

Bayfit® flexible cold shaped polyurethane foam, polyester fibre cover

Internal frame upholstery (RY183P)

shaped polyurethane of different density, polyester fibre cover

Seat cushion upholstery

shaped polyurethane of different density, sterilized down, polyester and cotton fibre cover

Back cushion upholstery (RYG235N-RYLG275N)

shaped polyurethane, polyester fibre, polyester and cotton fibre cover

Back cushion (RY48C-RY72C-RY72CP)

polyester fibre, box style typology, blanket stitching

Feet

die-cast aluminium

Ferrules

thermoplastic material

Cover

fabric or leather (blanket stitching)
